
PALLIATIVE CARE

The palliative care team provide expertise in palliative care for patients with a wide range of cancers and other advanced illnesses. This includes assessing and providing advice regarding symptom control, emotional, spiritual and social support for patients and their families. The main remit of the palliative care team is to maintain an optimum quality of life. The team is multi-professional including a clinical nurse specialist, consultants, social worker, physiotherapist, occupational therapist, dietitian and hospital chaplains. The principal team members who advise on pain relief and symptom control are:

Julie Doyle

Consultant – *Palliative Medicine*

(*joint appointment with NI Hospice*)

Toni Lenfesty

Specialist Nurse – *Macmillan*
